Enter your registered email and password to log in to your Wages-Pro account. Keep yourself logged in for quick access, and use the secure login to manage your wages safely and easily.

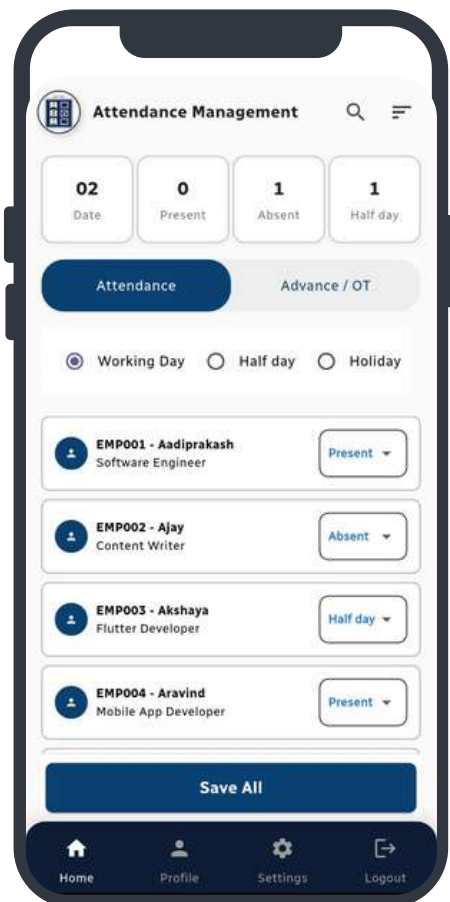

Home Screen

The Home screen provides a quick overview of today's activity, including attendance, total working days, current month, and wages. From here, you can easily navigate to Employee management, Attendance tracking, Wages calculation, and detailed Reports, all from one simple dashboard.

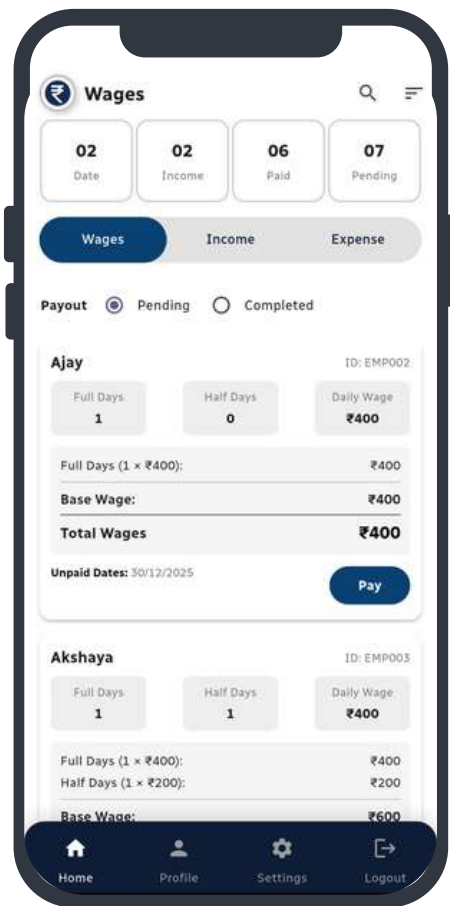

Employee

The Employee Management screen allows you to view, search, and manage all employees in one place. You can filter employees by active or inactive status, add new employees, and access individual employee details easily for better workforce and wage management.

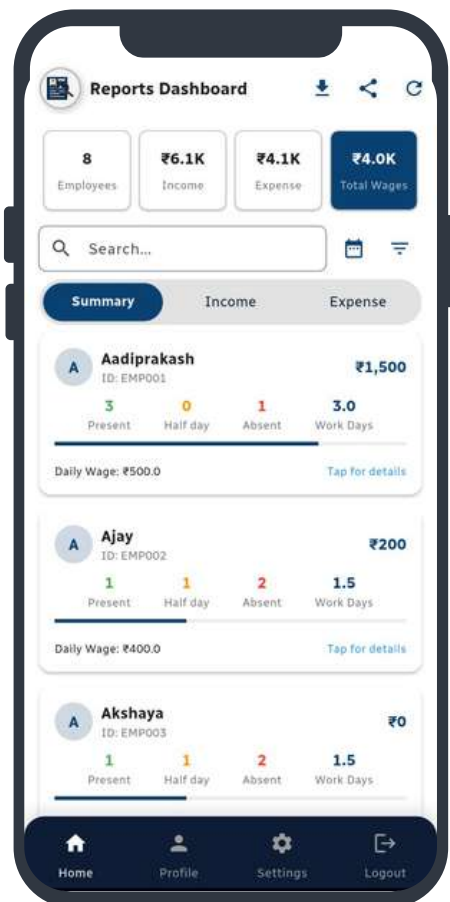

Attendance

The Attendance Management screen allows you to mark and manage daily attendance for all employees. You can select the working day type, mark employees as present, absent, or half day, record advance or overtime details, and save all entries at once for accurate attendance and wage calculation.

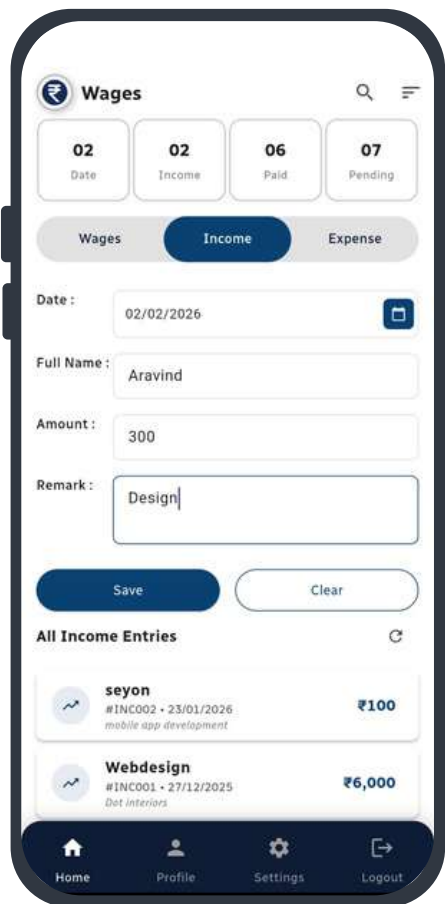

Wages

The Wages screen displays detailed wage records for employees, including payment dates, days worked, half days, daily rates, and total amounts. You can view paid and pending payouts, track income and expenses, and manage wage payments accurately from one place.

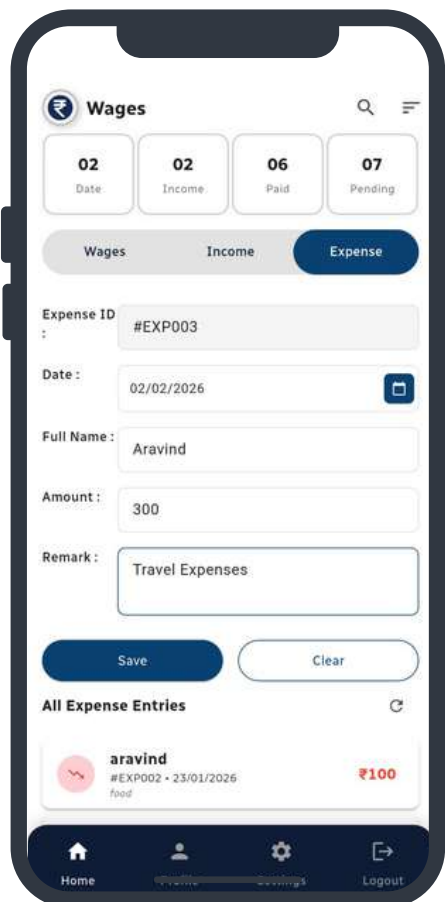

Report

The Employee Report screen provides detailed information about employees' work and wage details. These reports can be downloaded as a PDF or shared easily. It helps you review attendance, working days, and earned wages in a clear format – making it highly useful for records, reporting, and sharing with others.

Income

The Income screen shows a detailed record of all income entries, including dates, sources, and amounts received. You can view total income at a glance, search and filter records, and track earnings efficiently for better financial management and reporting.

Expense

The Expense screen allows you to record and manage all expense entries by entering the expense ID, date, name, amount, and remarks. You can save or clear entries easily and view all recorded expenses in one place to keep accurate track of spending and financial records.
